My friends, ask me  
When it comes to givin' you my heart  
How can I be sure?  
'Cause they see, how fast we  
Filled up all the empty parts  
In my soul and yours  
When I answer it erases their doubts  
'Cause the truth comes out

(( chorus ))

When I'm miles away  
And I still fell your touch  
When I make mistakes  
And no one gives up  
When you're in my arms  
Baby you're still not close enough  
That's how I know it's love

Just like they are  
I'm amazed I found someone  
Made just for me  
Ooh your love's so far  
Tell me I would be a fool  
Not to believe  
That I've been given a gift in this life  
I must have done something right

(( chorus ))

Now I know what forever's for  
Each day I want you more

(( chorus ))

That's how I know it's love..
