

Ballyhoo! "Drag"

Visit "[Drag](#)" on MotoLyrics.com

Hip hop sounds
Coming from my bedroom
Everybody's here, so where are you?
Sounds like fun
Coming from my bedroom
Everybody's here, so where are you?

And you said that you were leaving
And you would be here soon
But I know that you are locked up in your room

Smells like weed ya
Coming from my bedroom
Everybody's here, so where are you?
We're just chillin ya
Up here in my bedroom
Everybody's here, so where the fuck are you?

And you said that you were leaving
And you would be here soon
But I know that you are locked up in your room

And you told me you would be here
I guess you spoke too soon
Cause I know that you are locked up in your room
And I know that you are locked up in your room

Partys over, you never came this way
Why are you pushing us away?

And you said that you were leaving
And you would be here soon
But I know that you are locked up in your room

And you told me you would be here
I guess you spoke too soon
Cause I know that you are locked up in your room
And I know that you are locked up in your room
And I know that you are locked up in your room
