pickin on me, why do they beat me down like this
yeah
and makin fun of me, what did i do to get them so
pissed

oh read me a bedtime story
cause you know that i cant count sheep
yeah
i cry too, just like you know you used to
ohh im sad
so who do you think you're pushing around
well its not me, you'll see
ohh im sad

callin me names, yeah
everything from the book now
yeah
these bruises on my face
yeah
ugly shiny red black and blue

oh read me a bedtime story
cause you know that i cant count sheep
yeah
i cry too, just like you know you used to
ohh im sad
so who do you think you're pushing around?
well its not me, you'll see
ohh im sad

i never thought that it would happen to you
i never said you'd get what's coming to you
but all your confrontations wanna take you to the grave
now
it makes me wonder if you're feelin so brave now
you meet a lot of people and you talk a lot of shit
you're playin with your life and never know you're losin
it
but i guess with everybody it goes round and round
ashes to ashes and we all fall down
maybe the next one in line, maybe he'll think a little

better
you could've had good or badder but instead you
chose the latter
so you turn around a second feel the steel upon your
face
and click, BANG! what was you thinkin in the first
place?

i cry too, just like you know you used to
ohh im sad
so who do you think you're pushing around?
well its not me, you'll see
ohh im sad
