"Take Warning"

Visit "[Take Warning](#)" on MotoLyrics.com

Listen up
And we gotta take warning
Stand by your friends, wrong or right
Can't call it justice when it's just a stupid excuse to fight
Single out and attack the ones who got no defense
You call that a new way of thinking
I call it regression to ignorance

Take warning, Take warning, oh
Take warning, Take warning, hey

There's a new generation coming up
You know we gotta say no to them

No ones got a thing against you
What youve got something to prove
We don't need no set of standards,
We don't need a new set of rules man
Heard all that shit before
About stomping out any difference
We say stand together!
Not to fight just to exist

Take warning, Take warning, hey
Take warning, Take warning, oh

There's a new generation coming up
You know we gotta say no to them

I saw another beat down last nite take warning
Who's the next to hit the ground tonite take warning

Take warning, Take warning, hey
Take warning, Take warning, ho

Intimidation coming
And we really gotta say no to them

Take warning, Take warning, hey
Take warning, Take warning, ho
