Lovely, are you watching the tide roll by tonight?  
Lovely, do you see it in the nights bright sky?

Do you ever wonder if we're watching the same thing  
So far away?  
Do you ever wonder if we're watching the same thing  
So far away?

Lovely, do you feel it in the air and in my voice?

Questions hang inside the air before us.

Questions hang inside the air before us.

Questions hang inside the air, we'll take a day to  
understand.  
Questions hang inside the air, we watch our days fly  
through the air  
Questions hang inside the air, I wait for you to let me in.

Questions hang inside the air before us
