"Weed Party"

I got you arrested because
The party'd come and gone, gone
I am about to... to set this off
Until weed party's done, it's done
The wine is there to keep yourself
You got it wrong

So I brought you perplexing thoughts
Words were at a loss
It's a good day to skip because
The party's gonna come, come
The wine is there to keep yourself
But don't you ever listen at all
The parents aren't enforcing the law

The wine is there to keep yourself
But don't you ever listen at all
The parents aren't enforcing the law
