"Big Bird"

Visit "[Big Bird](#)" on MotoLyrics.com

There's a big bird over my house
Go away, go away
There's a big bird flying over my house
And it looks like it's decided to stay
It's making a mistake, a big mistake

Big bird
Big bird
Big bird
Big bird

I pinch myself
I think I'm not dreaming
I'm not
I hear screaming
C'mon! Get it out now

Wants to use me to feather its nest
Now it wants the rest
Wants to use me to feather its nest
Now it wants the rest

It's swooping from the branch
It's swooping from the sky
Spreadin' its feathers
Cuttin' out-flying

There's a big gray bird flying over my house
What do you think I am?
I'm not a louse

There's a big bird over my house
There's a big, big, big bird
Over my house

What's it doing?
What does it want?
What's it doing?
What does it want?
What's it doing?
What does it want?
What's it doing?

What does it want?

What's it doing?
What does it want?
What's it doing?
What does it want?
What's it doing?
What does it want?
What's it doing?
What does it want?

I pinch myself
I think I'm dreaming
I'm not, I hear screaming
C'mon! Get it out now

Wants to use me to feather its nest
Now it wants the rest
Wants to use me to feather its nest
Now it wants the rest

It's swooping from the branch
Swooping from the sky
Spreadin' its feathers
Cuttin' out-flying

There's a big gray bird circling
'Round my house
Circling round and round
Circling round my house

There's a big bird over my house
There's a big, big, big bird
Over my house
