Love is gone
But just for a while
It's full speed ahead
Now I can smile
You twisted my heart
With your wicked plan
But I saw the signs before I
I melted in your hand

I finally broke through
Dancing now
Before I broke down
I was no fool
Dancing now
You messed around
I finally broke through
Dancing now
Before I broke down
I was no fool
Dancing now
You messed around

I didn't fall for anything
I landed on my feet

Yeah you
Thought I would crash
Dancing Dancing Dancing
But I broke through

Dancing on the edge of the plane
Oh oh, edge of the plane
Showing the burn
Dancing Dancing Dancing
Ignoring the pain
Oh oh, edge of the flames

I finally broke through
Dancing now
Before I broke down
I was no fool
Dancing now

You messed around
I finally broke through
Dancing now
Before I broke down
I was no fool
Dancing now
You messed around

Venus went away
To a lonely outer star
Now she's back
And here we are
Now she's back
And here we are

I finally broke through
Before you broke out
I was no fool
No, you were a clown
I'm dancing on the edge
The edge of the flame
Showing no burns
You suffered no pain

I finally broke through
Dancing now
Before you broke down
Dancing now
I was no fool
Dancing now
No, you were a clown
Dancing now
I'm dancing on the edge
Dancing now
The edge of the flame
Dancing now
Wicked heart
Dancing now
Feeling no pain
Dancing now
I'm dancing on the edge
