Doin' it right, day and night
Doin' it right, day and night
Doin' it right, day and night
Yeah, tell it, tell it, tell it like it T I is

I gotta feel it, you gotta move it
You gotta move it, move it, move it
To the deep, deep rhythm
Tell it, tell it, tell it like it T I is

Seems like things are gettin' so bad
That you can smell it
Yeah, so open those eyes and get the real picture
It's time to tell it

I wanna talk, baby
I wanna say something
I've got to tell it like it
T I I I is

Tell it, tell it, tell it, like it T I is
Tell it, tell it, tell it, like it T I is
Tell it, tell it, tell it, like it T I is
Tell it, tell it, tell it, like it T I is

Tell it, tell it, tell it, tell it
I've got to tell it, tell it
I want to tell it, tell it

You got me talkin'
I wanna say something
Got me talkin'
I wanna say somethin', yeah

If you're lookin' for a movin' sidewalk
Dreamin' 'bout a monorail to take you away
Well, the day is now and here's the biz
You better get the real picture, tell it like it T I is

I'm spinnin' to the rhythm of the earth and the ocean
See the situation, oh, what a sight

I wanna talk, baby
I wanna say somethin'
I've got to tell it like it is
T I I I I is

Tell it, tell it, tell it, like it T I is
Tell it, tell it, tell it, like it T I is
Tell it, tell it, tell it, like it T I is
Tell it, tell it, tell it, like it T I T I is

Don't upset the balance of your nature
Make the jump when the coast is clear
Don't upset the balance of your nature
Reach the level above your fears

Can you feel the movement
Or hear the untamed melody?
Tell it like it is and was
And always should be, yeah

Like it is and was and always should be
Is and was and always should be
Is and was and always should be
Is and was and always should be

Tell it, tell it, tell it, tell it
I've got to tell it, tell it
I wanna tell it, tell it

You got me talkin'
I wanna say something'
Got me talkin'
I wanna say somethin'

Tell it, tell it, tell it

Like it T I is
Like it T I is

Tell it, tell it, tell it

You gotta tell it, tell it, tell it like it T I is
Tell it, tell it, tell it
Tell it, tell it, tell it like it T I is
Tell it, tell it, tell it

Tell it, tell it, tell it like it T I is
