In this time of mine

Let my voice be heard

Calling loud from the crowd

There's power in a word

In this time of mine

Let me speak words of truth

Truth is hard to find

Through it all

In this time of mine

Let me love with all my heart

Love is hard to find

Through it all

When I see dark clouds

Drifting high in the sky,

They will all soon pass

They will all pass by

In this time of mine

In this time of mine
