"Perfect Nations"

Visit "[Perfect Nations](#)" on MotoLyrics.com

(Coro:

Make your own search
Feel that we can go
Through the meaning of the situation
Make your time to bring out your feelings
You are free to enjoy the peace)

There's no time to lose
There's so much to be changed
And we can't only wish
That things will get better

A new world could be born
If we listen to our hearts
But we must stay close
We have to be together

Estribillo:

Don't live in perfect nations
I wanna try my life and my own direction
Talking about the future
Our dreams can be found in a revolution

(Coro: Make your own search
Feel that we can go
Through the meaning of the situation
Make your time to bring out your feelings
You are free to enjoy the peace)

Do you know what comes
If nothing is changed
In the world that we drive
For next generations

Maybe we could think
In the reason of the life
And we feel inside
We wanna run forever

Estribillo:

Don't live in perfect nations
I wanna try my life and my own direction

Talking about the future
Our dreams can be found in a revolution

Don't live in perfect nations
I wanna try my life and my own direction
A world for everyone
I don't wanna live in a broken nation

(Coro:
Make your own search
Feel that we can go
Through the meaning of the situation
Make your time to bring out your feelings
You are free to enjoy the peace)

Estrillo:
Don't live in perfect nations
I wanna try my life and my own direction
Talking about the future
Our dreams can be found in a revolution

Don't live in perfect nations
I wanna try my life and my own direction
A world for everyone
I don't wanna live in a broken nation (x2)

I wanna try my life
I wanna try my life, yeah...
Uhh...

(Coro:
Make your own search
Feel that we can go
Through the meaning of the situation
Make your time to bring out your feelings
You are free to enjoy the peace)
