8th day of the railway strike (no way, way out)
The union wrecked your holy night (no way, way out)
That's how you end a fucked up year
That's how we sort things out down here
And solidarity won't interfere

9th day of the railway strike (no way, way out)
With means like this ends can't be right (no way, way out)
It's funny how everything fails
Life's passing by on lonesome trains

10th day of the railway strike (no way, way out)
Going nowhere at the speed of light (no way, way out)
It's funny how everything fails
Life's passing by on lonesome trains
