Lousy trends, phony hypes
Someone should sort it out

Safely planned prototypes
Someone should set things right

Tonight the King will return from the grave and...
Bigger than Jesus, stronger than Satan
Salvation's coming straight outta Graceland

Clean the charts, Wipe away
All the filth you can find

Dear RIAA
Stop polluting my mind

Tonight the King will return from the grave and
We need a saviour, the position's vacant
Salvation's coming straight outta Graceland
