Don't wanna spit game
I wanna get to know you
Don't wanna waste time
Trust me and i'll show you
Don't wanna be here
Wanna be up in my bedroom
We'll be by the candlelight making love all through the
night

I see you clocking me i'm feeling you your feeling me
Feels like I need some healing can you be my remedy
The way you put that thing on me it's like your teasing
me
working my shit and now you want somemore of me

(Love you all night long)
Can I love your body like no other body can
(Till the break of dawn)
Gonna make your love come and I don't wanna spit

[Chorus] [2x]
Don't wanna spit game
I wanna get to know you
Don't wanna waste time
Trust me and i'll show you
Don't wanna be here
Wanna be up in my bedroom
We'll be by the candlelight making love all through the
night

Break out the wine cause tonight is your night
Enjoy the feeling imma take you on a ride
I'll take control girl I can give you what you want
Sit back and take it, you don't have to say a word no
Girl i'm gonna love you like a real man should
Wanna work that body and make you feel so so good
And imma tell you like Kelly
"Can't nobody, Can't nobody do your body like me."

[Chorus] [2x]
Don't wanna spit game

I wanna get to know you
Don't wanna waste time
Trust me and i'll show you
Don't wanna be here
Wanna be up in my bedroom
We'll be by the candlelight making love all through the
night

[Spoken Interlude]

[Chorus] [2x]

Don't wanna spit game
I wanna get to know you
Don't wanna waste time
Trust me and i'll show you
Don't wanna be here
Wanna be up in my bedroom
We'll be by the candlelight making love all through the
night
