It's the sunrise from the passenger seat  
Window down, hanging out, take it all in.  
It's the first sight from somewhere we've never been  
It's not long 'til we're gone but we'll be back again.

It's a long shot, but I swear we'll make it there  
Rain or shine it's the chance of a lifetime  
It's a long shot, but every part of me  
Grows more sure than before, this is where we shine.

You've got to give it all that you've got  
Even when they say it's a long shot  
Or else you'll never know.

It's the best rest when the day's finally done  
This city never sleeps, it's not the only one  
It's a daydream that I've had for so long  
Breaking charts, breaking hearts with every song

It's a long shot, but I swear we'll make it there  
Rain or shine it's the chance of a lifetime  
It's a long shot, but every part of me  
Grows more sure than before, this is where we shine.

You've got to give it all that you've got  
Even when they say it's a long shot  
Or else you'll never know.

We're living the dream again.

You've got to give it all that you've got  
Even when they say it's a long shot  
Or else you'll never know.
