boomerang by Babe

Like a boom, like a bang, like a boom, boom,  
boomerang

You will return, you're flying back to me

Like a boom, like a bang, like a boom, boom,  
boomerang

But from now on, no I don't agree

I love you, I need you, that's what I can't denie

But should I give in, till your next goodbye ?

Like a boom, like a bang, like a boom, boom,  
boomerang

I'll throw you back, I wanna stay free

Never in my life I met someone like you

Talking 'bout golden dreams that never come true

Four hours I was waiting till deep in the night

At last you came together with the morning light

Then you say: I'm sorry. I forgot the time

But to be a little late is not yet a crime !:

Like a boom, like a bang, like a boom, boom,  
boomerang

You will return, you're flying back to me

Like a boom, like a bang, like a boom, boom,  
boomerang

But from now on, no I don't agree

I love you, I need you, that's what I can't denie

But should I give in, till your next goodbye ?

Like a boom, like a bang, like a boom, boom,  
boomerang

I'll throw you back, I wanna stay free

Never in your life you met someone like me

Taking care for everything, cause that's your cup of tea

You're knocking at my door till deep in the night

Keep on knocking honey, till the morning light

Now I say: I'm sorry. I didn't hear you call

What do I hear; You missed me ? That's no news at all

!:

Like a boom, like a bang, like a boom, boom,

boomerang  
You will return, you're flying back to me  
Like a boom, like a bang, like a boom, boom,  
boomerang  
But from now on, no I don't agree  
I love you, I need you, that's what I can't denie  
But should I give in, till your next goodbye ?  
Like a boom, like a bang, like a boom, boom,  
boomerang  
I'll throw you back, I wanna stay free

Of course I don't mean anything I said  
A boomerang is the cutest toy, I ever had;

Like a boom, like a bang, like a boom, boom  
boomerang  
You will return, you're flying back to me  
Like a boom, like a bang, like a boom, boom,  
boomerang  
I'll take you back, I'll take you back  
In a one, two, three !
