please me please do by Babe  
You're acting like a movie star  
With your friends at the bar  
Watching all the dancing on the floor  
And it's everytime the same every weekend  
Now I know your little secret that's for sure  
While you're watching all the girls dancing by  
I know, boy of my dreams, you're too shy

Please me, please do  
Then will I please you  
Come along sugar baby don't be blue  
Please me, please do  
Then will I please you  
Tell ye that I like it  
And you'll like it too

Choo choo sugar baby hmhhh  
Choo choo sugar honey aaaahh

I see it boy you miss the flair  
And admit that you don't dare  
To ask a girl like me for a dance  
That's the reason, why I wanna help you  
Here I am, come and take a chance  
Stop watching all the girls dancing by  
Look at me, or are you still too shy

Please me, please do  
Then will I please you  
Come along sugar baby don't be blue  
Please me, please do  
Then will I please you  
Tell ye that I like it  
And you'll like it too

You think it can be nice  
I read it in your eyes  
Come along and take my advise

Please me, please me

Please me, please do  
Then will I please you  
Come along sugar baby don't be blue  
Please me, please do  
Then will I please you  
Tell ye that I like it  
And you'll like it too

Choo choo sugar baby hmhhh  
Choo choo sugar honey aaaahh

Please me, please me, please me

Please me, please do  
Then will I please you  
Come along sugar baby don't be blue  
Please me, please do  
Then will I please you  
Tell ye that I like it  
And you'll like it too

Please me, please do  
Then will I please you  
Come along sugar baby don't be blue  
Please me, please do  
Then will I please you  
Tell ye that I like it  
And you'll like it too

Please me, please do  
Then will I please you  
Come along sugar baby don't be blue  
Please me, please do  
Then will I please you  
Tell ye that I like it  
And you'll like it too
