shop around by Babe
No, no, no don't you ever
Shop, shop, shop, shop around

I don't know is it so can I trust you baby
'cause you too, got to do overwork all the time
Then I'm tossing and turning, are you coming home
I'm biting nails, close to the telephone
You don't have to justify every minute of your life
I never asked for that

No, no, no don't you ever
Shop, shop, shop, shop around
But don't you ever
Shop shop, shop shop around

When you're tired, and the fire inside is n't burning
Then I'm here and I'll care for you anytime
But I won't spent my live with watching tv
'till you realise that you need me
Don't justify every minute of the day
I never asked for that

No, no, no don't you ever
Shop, shop, shop, shop around

I always thought, with someone like you
I'm standing on solid ground
But don't you, don't you, shop around

No, no, no don't you ever
Shop, shop, shop, shop around

I love you but often I say to myself
I wonder were you can be found
But don't you, don't you, shop around
