In the night we think aloud  
We've no inhibitions now  
Spirits rising, burning from dreams  
We feel the flame of passion

CHORUS:

Coming alive again, oh baby  
Coming alive again, like a fire  
Coming alive again, sweet baby  
Coming alive again

All our thoughts communicate  
All the love we celebrate  
True emotions burning so strong  
We feel the flame of passion

CHORUS

Spirits rising, burning from deep  
We feel the flame of passion

CHORUS (TO FADE)
