Vessels of wrath overflow  
A smile of pity for human nature  
Defenseless mass psychosis

Thorns of perfidy for your own martyrs crown  
An architect of butterfly wings  
Needs no storm to fall  
Defenseless mass psychosis

Samaritans with poisonous wine  
Makes the addiction to a profit  
Revelation to some darkness to others  
The burdy ground is in mankind's mind

Icon of universal lies

I am an icon of universal lies  
I am the burning hate in the beholders eye  
I am the mourning prognosis  
I am the queen in the serpents nest

Samaritans with poisonous wine  
Makes the addiction to a profit  
Revelation to some darkness to others  
The burdy ground is in mankind's mind

I am all that you want me to be  
I am all that you never can see  
I am the shadow that stalks the night  
I am the star that shines so bright  
I am all the answers for the mysteries of earth
