The last time that I saw you  
Part of you had been shut down  
When we were young how I adored you  
How you always played the clown  
The other kids were frightened of you  
And that crazy laughter  
Oh but that's how I still think of you  
You knew what you were after  
Oh Kathy, whatever happened to you  
Are you really happy letting this guy tell you what to do  
You always had the last laugh  
You always had the last laugh  
Oh, Kathy  
Are you laughing now?  
Who knows how we were broken  
Who can say just when  
You started smokin'  
And I stuck to the plan  
I was frantic for approval  
Like a moth around a flame  
I thought you were too cool  
But now I know you just hid your shame  
Oh Kathy?  
In that condo outside Portland  
Where I saw you last  
He did all the talkin'  
Couldn't get down to the past  
Oh I know why I'm uneasy  
'Cause I couldn't pin down the change  
We're never quite what we seem  
But, now, you might say the same?  
Oh Kathy?
