Oh baby come home baby come home baby come  
home please come on home  
I see your picture on every wall then I realize that you're  
not here at all  
Come home now baby come home  
Well I miss you so much come on home come on home  
I love you so much come on home

Well all of those years were not all bad cause I'm so  
lonely I feel so sad  
Oh but you come back baby come back to me and I  
hope that you still love me  
Come home now please come on home  
Well I miss you so much...  
[ guitar ]  
Well all of those years...  
I love you so much come on home
