It's too late now still I've got something to say
Girl I'm sorry that I treated you that way
Time has gone now and the moment has passed
When I had the chance to try and make us last
All alone now and it's no ones fault but mine
Couldn't see the truth I had them blinded eyes
You got moved on still I don't give a damn
Gotta get this off my chest while I can

Every single hour of every single day
I miss you more and a more
And I don't know what to say
I knew I closed the door
Your gone and on your way
But now, I need you, I need you

[Chorus] [2x]
Wanna take it back to the day when we first met
If I could I'd start all over again
Our love is my regret

Should have known then what I know now
Dying every second that your not around
Should have been there
When you needed me babe
Now i'm by myself on my bended knee
Should have loved you
While I had the chance to
Couldn't realize that you were the truth
Should have showed you
What you meant to me
Baby now I see that you are my queen

Every single hour of every single day
I miss you more and a more
And I don't know what to say
I knew I closed the door
I've sent you on your way
And now your gone, gone, gone-
Can we take it back babe?

[Chorus] [Repeat]

Wanna take it back to the day when we first met

If I could I'd start all over again

Our love is my regret
