In a dream I see  
A world meant for me  
Wrapped in mystery  
Though it seemed to me

And so I will follow a falling star  
To find out who I am and who you are  
Come along  
It can't be very far  
The waves are singing

I see a butterfly  
Dancing on the wind  
Merging with the sky  
It's time to begin

And so I will follow a falling star  
To find out who I am and who you are  
Come along, you know it can't be very far

Don't look in the tower  
It's not where I'll be  
On a shore by the waves  
Windswept and free  
I'll be free

And so I will follow a falling star  
To find out who I am and who you are  
Come along, you know it can't be very far  
The waves  
They sing to me
