Like a bird that flies
In the morning light
Or a butterfly in the spring
When your spirit rides
On the winds of hope
You'll find your wings

And you always free to begin again
And you always free to believe
When you find the place that your heart belongs
You'll never leave

You and I will always be
Celebrating life together
I know I have found a friend forever more

Love is like a melody
One that I will always treasure
Courage is the key that opens every door

Though you may not know where your gifts may lead
And it may not show at the start
When you live your dream
You'll find destiny
Is written in your heart

Though you may not know where your gifts may lead
And it may not show at the start
When you live your dream
You'll find destiny
Is written in your heart
