[Fanny:]
I loved a man
Truly I did
When he would touch me I'd act like a love-hungry kid
Isn't this better?
Somebody nice
Somebody new
Someone who lets me react as I normally do
Isn't this better?
Better...
Passion is fine, but passion burns fast
Passions design seems never to last
Better a match
Better a blend
Who needs a lover?
I need a friend
Now I am calm
Safe and serene
Heartache and hurt are no longer a part of the scene
Isn't this better;
The way it should be
Better for him
And oh so much better
For me
Better
Passion is fine but passion burns fast
Passions design seems never to last
Better a match better a blend
Who needs a lover I need a friend
Now I am clam save and serene
Heartache and hurt are no longer a part of the scene
Isn't this better
The way it should be
Better for him
Much better for him
And also much better for me
