FANNY

Say it's only a paper moon, sailing over a cardboard
see

But it wouldn't be make belief if you belief in me

I like him I know he's phoney

But when they packages it nice and market it right

I buy beloney

Yes I like him though I can see that he's the type

I'd better get busy and do unto to first

Before I find he's done unto me

He's mostly made of chutzpah

A fake a con a lie

Could be I like him cause

So am I
