Didn't I like to hold you in my hand  
I was doing you no harm  
I made you understand  
All my life Ive been that way  
It happened long ago  
Didn't I pray to love you through the night  
I was dreaming wide awake  
The early morning light shine on me  
A sorry state  
My heart has told me so  
And the storm clouds gather overhead  
No shelter we can share  
Lie down on my flower bed  
I got no control  
I would sell my soul  
To be there  
So forever do or die  
We just belong  
Kiss hello , no wave goodbye  
And the heat is stronger  
For the moment when we touch  
No wind can hold me  
Come from loving you too much  
And the nights are longer  
Make it like a memory  
Make it like a dream unreal  
Make it like we never met  
But I can't forget  
Its how I feel  
Make it like a memory  
Take away the sound and the sight  
There'll never be another love  
With the power of , you and i  
Maybe Im wrong to hold you in my hand  
I believed you when you lied  
I tried to understand  
All my life , Ive been that way  
It happened long ago  
Make it like a memory  
Make it like a dream unreal  
Make it like we never ever met  
But I can't forget

Its how I feel  
Make it like a memory  
Take away the sound and the sight  
There'll never be another love  
With the power of , you and i
