[Chorus]

I don't get it anymore,
I don't get it anymore.

[Verse 1]

It's a long way down,
From the airplane cabin to the ground.
Then my heart would pound,
As the earth spun round and round and round.

[Chorus]

I don't get it anymore,
I don't get it anymore.

[Verse 2]

I used to be afraid,
Doubted each decision that I made.
Whenever I went out,
I had a feeling I was talked about.

[Chorus]

I don't get it anymore,
I don't get it anymore,
I don't get it anymore.

[Bridge]

I ran into a friend of mine,
No one you would know.
It wasn't how the stars aligned,
I at once was lost, she told me where to go.

[Verse 3]

I used to get upset,
I would lose it every chance I'd get.
Until you called my bluff,
I had a feeling I wasn't good enough.

[Chorus]

I don't get it anymore,
I don't get it anymore,
I don't get it anymore,
I don't get it anymore.

[Outro]

I get aroused whenever you're around.
I once was lost in her lost and found.
I get aroused whenever you're around.
I once was lost in her lost and found.
