On the lookout
The wind stopped
We chose this spot to begin

When we looked out
The waves crashed
Smashing our past and moving fast
Nothing lasts, make it last

This all will pass just like us
Just like this spot
Don't miss this
We've only got one shot

Hold on to
(Out on the lookout, so in love)
This rock face
(Out on the lookout, so in love)

Dried and cracked
(Out on the lookout, so in love)
But grab on, don't wait long
And longing to lookout for you

This all will pass just like us
Just like this spot
Oh, don't miss this
We've only got one shot

On the lookout
(Out on the lookout, so in love)
On the lookout
(Out on the lookout, so in love)
On the lookout
(Out on the lookout, so in love)

On the look, look, look, look, look, look
(Out on the lookout, so in love)
On the look, look, look, look, look, look
(Out on the lookout, so in love)
