I was surprised at how incredibly fast you were  
To come up and ask for a light  
I was amazed at just how matter of fact you were  
In taking me back by the night

I only crave the sugar on the pill  
I hope that you will

Trust me, trust me, to let you down  
You know that somebody got there first  
Trust me, trust me, to let you down  
My finger's crossed while my lips are pursed  
Trust me, I don't know where I'm going  
You can drop me there

Don't understand how the roles are reversed  
And now it's me that's freaked out by the chase  
The holy trinity are there in your purse  
A condom, obsession and mace

It's easier if I'm on my way  
So anyway you will

Trust me, trust me, to let you down  
You know that somebody got there first  
Trust me, trust me, to let you down

My finger's crossed while my lips are pursed  
Trust me, I don't know where I'm going  
You can drop me there

I want you, you want me  
I want you not to want me  
I need you to need me  
To leave me, needing you to leave

Trust me, to let you down  
You know that somebody got there first  
Trust me, trust me, to let you down  
My finger's crossed while my lips are pursed  
Trust me, I don't know where I'm going  
You can drop me there

(Trust me, down)  
Trust me to let you down  
You know that somebody got there first  
(Trust me, down)  
Trust me to let you down  
My finger's crossed while my lips are pursed

(Trust me, down)  
Trust me to let you down  
Trust me to let you down  
(Trust me, down)  
Trust me to let you down  
Trust me to let you down
