Never thought the long beach hilton
Would ever be a landmark in my life
That's the place that I first kissed you
And where I first saw you undress

So I bought myself a keyboard
Thought I'd be the tom waits of my time
But everytime I wrote a song it sounded wrong
And the words would never rhyme

One year later I moved to new york
Another year I was back in the very same place
I moved to new york again and back again
The only thing that stayed the same was your face
Things looked great in 98
I got a band and the songs started sounding right
But things weren't fine in 99
That's when I broke your heart
I still remember the day

Well my mom likes to be called moe
Wonder what it would taste like if she cooked a meal
with my friend snow
There are lots of things that I don't know
So all I can think of to say
Is say hello to joe

Well my mom likes to be called moe
Wonder what it would taste like if she cooked a meal
with my friend snow
Well there are lots of things I don't know
All I can think of to say
Is say hello to joe
