Hello sunshine it's been too long  
Since I felt your warmth upon my face  
And how much have I missed  
Cause I've been focused on everything wrong  
This road just felt so long  
I forgot to lift my head to see you

Oh my lovely shining for me  
Let my eyes see all the beauty  
Oh-oh

Hello sunshine since the moment  
That I felt your beautiful warmth  
I knew that I'd do anything  
To keep this feeling of you  
My heart comes alive  
Oh who could add a day to this life  
By drowning every dark sky

Oh my lovely shining for me  
Let my eyes see all the beauty  
Oh-oh

Fill my dark skies  
Make me see the light  
Life is fine so bring in the sunshine  
Oh-oh

Let in the, let in the sunshine  
Whoa-oh let in the sunshine  
Let in the, let in the sunshine  
Whoa-oh let in the sunshine
