(Verse 1)

Rise up again
Shake off the shadows
Unlock the doors
and let hope live once more
Cause up from the ashes
oh the fire is woken
Cause those who were broken,
are becoming the chosen

(Chorus)

So lift up your eyes
Cause we're not forgotten
And hope will lead us on
Oh we pray for the dawn
and we reach for the mornin'
And hope will lead us on

(Verse 2)

Come let us see
Beyond these moments
Open our eyes, to to see the truth that You see
Cause all that we know now
When You're all we hold to
You can't disappoint us, it's safe here with You

(Chorus)

So lift up your eyes
Cause we're not forgotten
And hope will lead us on
Oh we pray for the dawn
and we reach for the mornin'
And hope will lead us on

And hope will lead us on
And hope will lead us on
And hope will lead us on
