"On The Floor"

The door knob smiles at me alone
But will I open the door again
I've seen this happening before
I've seen myself fall face first on the floor
Crash and burn
On the floor
So I turn Crash and burn

Can you hear me talking
Can you see me there
Am I getting anything from you
Can you hear my whispers
Can you see me there
Coz I'd be lost
I'd be lost without you

Forever envelopes my days
Gasping for air as I look for an escape
I'm drowning in a letter made to stay
I took one look away

This song's about you
Cause I still do
