(To be your superhero ...)
I can't sit and wait
For you to say
If there's room inside your heart
I'm not used to playin'
That silly game
Turn me down or let me start
You have to believe I'll make things right
Open your arms, give up the fight
CHORUS
For all that you want, For all that you're feeling
There's a place where you can go
For all that you need, I will be waiting
To be your superhero
Now if you decide
To run and hide
It's only you you're cheatin'
(The key's in your hand)
The key's in your hand
(You must understand)
You must understand
I won't be defeated - no!
I really believe this goes inside
Open your arms, let me see your life
REPEAT CHORUS
(To be your superhero)
I'm sure that you've heard this before so many times
(So many times)
Girl look inside my heart and you will find
You'll find your superhero
I'll be the one to hold you
I'll never let you go
I'll always understand you baby
To be your superhero
REPEAT CHORUS TWICE
