Blackbird  
Blackbird  
Blackbird... fly away  
Blackbird  
Blackbird... I don't want you no more  
Blackbird sorry... little things come and change our  
world  
Lady blackbird... fly away  
First Verse  
Tried to santify her, but above the wire she would fly  
Tried to call her back, but she could not hear she was  
just to high  
Majestic dawn, she pery's the wind beauty and  
wonderment  
She soar's on, alone is the flight of deadliest sin  
It's natures deadly toll and it takes away so easy  
The calm before the storm does it fool you everytime  
What mother takes away she can bring back so easy  
Birds of beauty parish as sure as this rhyme  
Blackbird... I don't want you no more  
Blackbird sorry little things come and change our  
world... you see  
Lady blackbird... fly away
