### "What It Means"

Visit "[What It Means](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I feel good. I feel bad. Ain't it sad  
One day it's all going to end  
Up in flames. Without a shame  
Cos I'm here. To change the total  
course of the world (yeah yeah)  
And that's what I'm singing (yeah yeah)

Heat it up. Cool it down  
Spread it around under the cold  
shadow of love. I have found (I have found)  
What it means (what it means). To believe (to believe)  
And leave the world to the remains  
Of the day (of the day). What I say (what I say).  
Ain't so clear (ain't so clear)  
To souls who die when the decline  
Can't be seen (can't be seen). They're getting mean  
(they're getting mean)  
Now we're going (now we're going)  
To change the total course

(chorus)  
Here am I.  
Love just spilled on what comes naturally.  
Buy and bye  
Love just spills and I don't mean rationally

What it means. Is you're dead  
One to the head. If you don't know  
what is behind. This disguise.  
It's no surprise. When you think  
About your own every step of the way

The energy pirates will get you  
They'll chew on your bones for breakfast  
They'll convince you that baby you're desperate  
They'll spit on your mound and keep pounding and  
pounding and

(repeat chorus)

All the time. Love just comes and I

don't mean casually. Wait a while  
Love will come and fuck that tragedy

(Cancel that shrink we're travelling up  
to the sky minds on the blink  
Or maybe the lies. Out of time)

I have found. What it means. To believe  
That what is all going to end  
Up in flames. Is your heart  
So let it speak. And change the total  
course of the world
