I've never been sorry
For the way I was raised
The enemy fewer and
The love that I made
Was the symbol of the time
A celebration of the wine
I made a memory in you

I'll still be the reader
Of the letters you write
I've never been lonely
For the rest of my life

There's a corner in my heart
Oh, we can never be apart
No, we can never be apart

No tomorrow
You'll be gone tomorrow
We can dance the night away
I can bestow to you all my love
On your wedding day

[CHORUS]
Shine, shine
For how much longer you'll be mine
There'll be no vows to be broken
You mean the world to me
Someone else that we
Both call love in your eyes
I believe together you'll shine

I was born to be with you
On the day you were born
A beautiful angel
With her face in the sun
She was searching for the moon
In every sparkle in the spoon
You haven't changed

I'll still be the face
In everybody you see

A light in the night
If you need me to be

In every corner of the world
If any smile becomes a tear
I will shelter you from the rain

No tomorrow
You'll be gone tomorrow
We can dance the night away
I can bestow to you all my love
On your wedding day

[Repeat CHORUS]

And I, I love you
There's no one else
I place above you
Life is a road before you
While he can show the way for you
My darling, I will pray for you

[Repeat CHORUS]
