Sometimes I look at you
Sad and so beautiful
Young and alone
And so far from home

Much too much for you
Much too soon
Empty eyes gazin' at
The moon

As sure as I'm standin' here
You'll never have to be afraid
As sure as I'm standin' here
I'll try and help you find your way

Oh I swear as sure as I'm standin' here
You'll never need to be alone
You've got my word
As sure as I'm standin' here

Sometimes I look at you
Sleepin' like a baby
Your hair combed with sunlight
Full of sweet days

You say nothin' matters
Say you know how it is
Did you think it would be
Like this?

But sure as standin' here
You'll never have to be afraid
As sure as I'm standin' here
I'll try and help you find your way

Oh I swear as sure as I'm standin' here
You'll never need to be alone
You've got my word
As sure as I'm standin' here
Oh I swear as sure as I'm standin' here
