I used to be such a soft touch  
I gave too much  
Love always came down losing  
Well the news is, I'm not for using

You can't break this heart of steel  
You won't see me down on my knees again  
You can't break this heart of steel  
Lovin' you gave me a heart of steel

Knock on my door if you want to  
Some night I might not want you  
You taught me all the devices

Now my prices are the highest

You can't break this heart of steel  
You won't see me down on my knees again  
You can't break this heart of steel  
Lovin' you gave me a heart of steel

You could have had me for all time  
Now the pleasure I'm having is all mine

You can't break this heart of steel  
You won't see me down on my knees again  
You can't break this heart of steel  
Lovin' you gave me a heart of steel
