You start off with the verse
That's the part that tells you what the song is going to
be about
You gotta grab a verse
Dope is good, or death is nice
But love is still the best way out
And you pad, and then you fill
Or you complain, or get a chill
But most of all you move along to the center of the
song
Yes that's the chorus
Singing for us
Never overlook
Giving it a hook
You see sometimes I really do write the songs

And now the second verse
This is where you find out who's a creep and who's a so
and so
You're not allowed to curse
Cause if you do they'll never play you on the AM radio
And then you build and speculate
And don't forget homogenate
But most of all you move along to the center of the
song
And that's the chorus
Singing for us
Never overlook
Giving it a hook
You see sometimes I really do write the songs

If you sing it to me once I could sing right back
If you sing it to me once I could sing right back
Sing it once, sing it back
Sing it once, sing it back

Love that chorus
Shove that chorus
Never overlook
Giving it a hook
You see sometimes I really do write the - oh what the

hell
I write the songs
