All my life
I've been living in a fantasy
Songs of love
To help me through the night

All my life
I keep wondering where you'll be
When will I finally see the light

Oh, Some sweet day
I know I'll find you
I won't stop searching til I do
This I swear
If I live my whole life through
I'll hold on till my dream comes true
Some sweet day
Some sweet day

Where are you
Darling, how I need you now
Need your voice

I need to know your name
Where are you
Please try to get through somehow
I don't want to be alone again

Oh, Some sweet day
I know I'll find you
I won't stop searching til I do
This I swear
If I live my whole life through
I'll hold on till my dream comes true
Some sweet day
Some sweet day

I've been shouting to the sky
And I keep on asking why
If I have to hold out much longer
I will surely die
