By Barry Manilow and Bruce Sussman

---

Things were very quiet, back there  
You really oughtta try it, back there  
But when you think youve had enough  
Its come the time to pack your stuff and go  
I know  
I know Im goin upfront, out in front  
Leavin everyone behind, got to see what I can find  
Upfront  
Upfront, out in front, I was always meant to be  
There for all the world to see  
Upfront  
Nothin but beginners, back there  
They never heard of winners, back there  
They laughed at all my crazy schemes  
They told me to forget my dreams and stay  
No way  
The way to go is upfront, out in front  
Leavin everyone behind, got to see what I can find  
Upfront  
Upfront, out in front, I was always meant to be  
There for all the world to see  
Where the livin is high  
And the lovin is free and easy  
Every star in the sky is shinin for me, for me  
Upfront, out in front,  
Leavin everyone behind, got to see what I can find  
upfront  
Upfront, out in front, I was always meant to be  
There for all the world to see
