I changed my life  
So I can be with you  
But you turned and walked away  
Tell me what to do(2x)

Somehow I know you still believe (2x)

You interrupted my bliss for this I'm sorry  
Used to be steak and fish calamary  
But now all you do is drink and party  
Girl you weren't the greatest, the greatest was Ali

In the words of the great late Bob Marley  
No Woman No cry  
Yes sure I do believe

I count my blessing everytime I see my loved ones  
Wonder why I'd be stressin off a silly woman  
Boy get your head straight  
Boy get your head right  
Keep on buzzin with your cousin boy  
And have a good time

Sometime I know it's right  
Sometime I know it's wrong  
Sometimes I do it big  
Sometimes I'm all alone

I changed my life  
So I can be with you  
But you turned and walked away  
Tell me what to do(2x)

Somehow I know you still believe (2x)

Up and down like a see-saw  
Baby let me free fall  
Me you fall again  
And baby don't make me he-haw  
And when I get caught up again  
And I'ma put that on my mama and next of kin

Money can't buy me happiness  
But it will brighten my day(brighten my day)  
They say money can't buy me happiness  
But it will brighten my day (brighten my day)

Baby girl you dun did it  
I ain't with it  
Only problem in my life was you  
So good riddance  
Out the door quick  
Feet first sideways  
So check it out quick I'm ridden the highways

I changed my life  
So I can be with you  
But you turned and walked away  
Tell me what to do(2x)

Somehow I know you still believe (2x)

Money wont buy you happiness  
But it will brighten your day(2x)
