Love is no fun anymore
There's too many things I can't afford
So what do you mean when you say
That she's your girlfriend today
I wouldn't ever wanna rush you
Don't want to lose you
I'd never fuss you
But I love a love a love you
Don't wanna lose you
I'd never fuss you
But I love a love a love you
Love's not beating down on my door
I guess it's cause ooh, I got lucky, lucky before
I wouldn't ever wanna rush you
Don't want to lose you
I'd never fuss you
But I love a love a love you
Don't wanna lose you
I'd never fuss you
But I love a love a love you
Wealth is boring without happiness
Fame is notorious for causing stress
Health is for binging on in between drinks
Money over matter for the rich in minks
I wouldn't ever wanna rush you
Don't want to lose you
I'd never fuss you
But I love a love a love you
Don't wanna lose you
I'd never fuss you
But I love a love a love you
Never wanna rush you
Don't want to lose you
I'd never fuss you
But I love a love a love you
Don't wanna lose you
I'd never fuss you
But I love a love a love you
