(feat. Nate Dogg)

Money Money Money

[Nate Dogg]

That's my lady, she will never jack me down (Money,
money, money)

That's my baby, she's gone always be around (Money,
money, money)

She will never play me, she stray true when I leave town
(Money, money, money)

That's my playmate

Got my mind on my money

Got my money on my mind

[Baby Bash]

She's my peso, my denero, my paper, my playmate

She's always on time and never a day late

She's never on a diet, my pockets they gain weight

And me without her is something I can't take

Now we gone ride like the wind, my lover, my
dividends

She my fatty, I'm her dirty and she's my best friend

Got me spending weekends in Kingston Jamaica

Eww my favorite charge

Eww I love my paper

And when she step out of line, that he gone get on the
grind

Facing penitentiary time, but she's eventually mine

The same color as my hydro, I swear the only breezy I
die for

My mind sold

In love with this cheddar

Me and her go together

Like birds of one feather

She keep me riding on leather

And chrome, you know it's on when my baby come
home

She's my playboy bunny that's sweeter than
honeycomb

[Nate Dogg]

That's my lady, she will never jack me down (Money,
money, money)

That's my baby, she's gone always be around (Money,
money, money)

She will never play me, she stray true when I leave town
(Money, money, money)

That's my playmate

Got my mind on my money

Got my money on my mind

[Baby Bash]

Love at first sight

Sex on the first night

My blessing when I'm stressing, she's keeping my
game tight

She's doing the thing right

She's beeping compliancy

If I'm Ricky Ricardo, then she's my Lucy

My fly serenity, my pockets is energy

As a matter of fact, she's gone bring the Hennessy

I'd love to hold her, fold her, her love is so douja

Got them dime pieces making love to my poster
(what is it?)

I'm loving this part of the game

And my money aint genocide I aint got to explain

Swinging her from lane to lane

We doing the damn thing

My money, my motivation, my national campaign

[Nate Dogg]

That's my lady, she will never jack me down (Money,
money, money)

That's my baby, she's gone always be around (Money,
money, money)

She will never play me, she stray true when I leave town
(Money, money, money)

That's my playmate

Got my mind on my money

Got my money on my mind

[Feminine Voice & Baby Bash]

My pride, my joy, my everything (that's what I am
talking about)

I ride my boy on everything

My pride, my joy, my everything (that's what I am

talking about)
I ride my boy on everything
My pride, my joy, my everything (that's what I am
talking about)
I ride my boy on everything
