"Working For The Enemy"

Visit "[Working For The Enemy](#)" on MotoLyrics.com

Have you ever wondered how a love
Can lift you up but then take you down
?Cause you haven't noticed
You're about to be a loser in this round

Tell yourself it's all too hard
Working for the enemy

I think there's something crazy going on
Inside your head behind your eyes
While you light a cigarette
You try to hide the fire from my spies

Tell yourself it's all too hard
Working for the enemy

Looking back you must have been
Working for the enemy
Working for the enemy
Working for the enemy

Tell yourself it's all too hard
Working for the enemy

Looking back you must have been
Working for the enemy
Tell yourself not this time
Working for the enemy

Lookin? back
Well you must have been
Working for the enemy
Working for the enemy

You tell yourself
Not this time
Working for the enemy
Lovin?, I am the best ooh yeah
You work for me
