12 men strong and true
12 men fight for you
on their heads a beret of green
12 men invincible the A-Team

12 men heard the call
ready to give their all
they bring hope where they are seen
12 men invincible the A-Team

from aisa's tropical jungle rains
all the way to africa's burning plains

where ever there's trouble, night or day
those are men of the green beret
who fan the fire of freedoms dream
12 men invincible the A-Team
12 men invincible the A-Team
