12 men strong and true
12 men fight for you
On their heads a beret of green
12 men, invincible
The A-team

12 men heard the call
Ready to give their all
They bring hope where they are seen
12 men invincible the A-team

From Asia's tropical jungle rain
All the way to Africa's burning plains

Where ever there's trouble
Night or day
Go the men of the Green Beret
To fan the fire of freedoms dream
12 men invincible the A-team
12 men invincible the A-team
